GENERAL INFORMATION:

Marcantonio turns one of the most iconographic animals into an ideal companion to get relaxed in outdoor areas. Kroko is an armchair with round lines, it spreads irony in the environment. Kroko is at the same time an industrial item and a sculpture, with references to Nature and contemporary art, thanks to its hinted but also unmistakable shape. Kroko is made in a new biobased plastic derived from the sugar cane, a renewable source. Bullard Outdoor is the first company that uses this new bioplastic material in the world of design, and the shades recalls the natural colours of the Earth.
